

Affordable Community Housing

ACHL recognised for excellence in tenant participation (Dec 2010)

Affordable Community Housing Limited strongly believes that providing housing is more than simply putting a roof on people's heads and actively encourages and provides social opportunities for tenants.

Therefore ACHL is pleased to receive the 2010 NSW Award for Excellence in Community Housing in the area of Tenant Participation.

The award was in recognition of the numerous initiatives introduced by ACHL promoting tenant empowerment. These include the successful introduction of Local Tenant Groups aimed at strengthening participation by giving tenants greater voice and independence. Similarly other impressive initiatives include the widely successful tenant markets, the no interest loan scheme giving tenants a chance to purchase whitegoods, and an exciting new partnership with Oz Harvest.

The NSW Awards reward community housing providers who have shown success at enhancing the quality of life for tenants and contribute successfully to their local communities. ACHL is proud to receive the award and we will continue delivering programs of social benefit to our tenants.
